## NATIONAL LAW SCHOOL

Diplomas Presented to Graduates Last Evening.

EVERY STATE REPRESENTED

Class Congratulated Upon Choice of Profession.

MR. CARUSI AWARDS DEGREES

Names of Prize Winners—Gold Medals and Special Gifts—Personnel of Committees.

Degrees in law were conferred upon nearly a hundred men at the thirty-seventh annual commencement of the National University Law School at the New National Theater last evening. Every state and territory of the Union was represented in the graduating class, as were also England, Germany, Mexico, Venezuela, Santo Domingo and the insular possessions of the United States, Hawaii, Philippine Islands and Porto Rico. The exercises were attended by a large audience of friends of the students and the institution.

Representative John J. Jenkins of Wisconsin, chairman of the House judiciary committee, delivered the address to the graduates. At the opening of his remarks he congratulated the members of the class upon their choice of the legal profession and upon the successful prosecution of their scholastic studies. He said the selection they had made for their life work was a commendable one, and that it required a "vigilant and persistent" effort to maintain the high standard of the profession.

been adopted, he asserted, by many other schools of law.

Awarding the Degrees.

The degrees were awarded by Mr. Eugene Carusi, recently elected by the university its tenth chancellor, vice R. H. Alvey, late chief justice of the District Court of Appeals, who, on account of ill health, resigned as chancellor after a service of nearly ten years.

The degree of master of law was conferred upon the following: Homer Tyndall Booth, LL.B., National University, Indiana; Alexander M. Runyan, LL.B., National University, North Carolina; Ulysses Butler, LL.B., Georgetown University, Pennsylvania; Paul Cook, LL.B., National University, Maryland; Andrew Combs, LL.B., National University, Maryland; Frank H. law shows that he is a man and demonstrates that he is a person of worth in the world. The country needs more lawyers. It needs more minds so trained and skilled in the law as to be able to deal intelligently with the intricate and perplexing questions that constantly arise in the government of a great republic in an age of advanced civilization.

Increasing Need of Lawyers.

The speaker referred to the increasing need of lawyers of ability in the formation of state laws and in the regulation of interstate relations. He declared the firm conviction that there will never be any more sectional strife of a serious nature in this country, but said that the smooth and harmonious working of the internal machinery of government requires that the law shall be widely and thoroughly known. The future of this country, he declared, depends upon a firm adherence to the great fundamental principles of right and justice, and added that a solemn obligation to conserve those aims rested upon every man sent forth with the diploma of the university.

"If there is any one thing more than another that I would urge upon you," he said, "it is that you should be honest in every aspect of your professional career. If you are fortunate enough to collect a large fee, it is that you should be honest before the jury. If you are not honest the people will soon discover it and will constantly shun you."

Honesty of Action and Purpose.

Representative Jenkins told the graduates that if they made honesty of action and purpose their rule of life they would not only succeed before the judges of the earth, but would be able to stand at last before the great Judge of all. At the conclusion of his address Representative Jenkins was loudly applauded and was presented with a beautiful bouquet of flowers.

At the opening of the exercises the Ma-

rine Band rendered several selections. As the members of the graduating class in cap and gown marched upon the stage they were loudly cheered. Back of the four lights was a continuous line of flowers, gifts to the graduates from admiring friends.

Rev. Dr. Frederick D. Power offered the invocation, after which Prof. Frederick L. Siddons of the faculty delivered an address introducing Representative Jenkins. Prof. Siddons referred to the honorable history of the school, declaring that the excellent work it had done and is doing was evidenced by the character and accomplishments of the men whom it had sent out with its seal and approval. He stated that the university had adopted a method of instruction peculiarly its own and asserted that the worth of this system of teaching had been thoroughly demonstrated. It had

## To Get More Strength From Your Food.

LOTS of people are starving with a full stomach. You know, it's not how much we eat, but how we digest that makes us strong, or brainy, or successful. When the Bowels are filled with undigested food we may be a great deal worse off than if we were half-starved for want of food. Because, food that stays too long in the Bowels decays there, just as if it stayed too long in the open air. It needs only one Cascaret at a time to stimulate all the Bowel-Muscles enough, without purging, discomfort or loss of nutrition. So, if you want the same natural action that a six-mile walk in the country would give you (without the weariness), take one Cascaret at a time, with intervals between, till you reach the exact condition you desire. One Cascaret at a time will properly cleanse a foul Breath, or Coated Tongue, thus proving clearly its ready, steady, sure, but mild and effective action. A coming Headache can be warded off, in short order, by a single Cascaret, and the cause removed. Heartburn, Gas-belching, Acid-risings in the throat, and Colicky feeling—these signs of Bowel trouble from food poisons, and should be dealt with promptly. One Cascaret will stop the coming trouble, move on the Bowel load, and free the Digestive Juices, if that one Cascaret is taken as soon as the first signs are noticed. Don't fail to carry the Vest Pocket Cascaret Box with you constantly. All Druggists sell them—over ten million boxes a year, for six years past. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

**FREE TO OUR FRIENDS!** We want to send to our friends a beautiful French-designed, GOLD-PLATED BOMBON BOX, hand-embossed in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets with which this dainty trinket is loaded. 717 Send today, mentioning this paper. Address: Sterling Remedy Company, Chicago or New York.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them—not "Physic" to pamper them. There's only one kind of Artificial Exercise for the Bowel-Muscles. Its name is "CASCARETS," and its price is Ten Cents a box. Cascarets act like Exercise on the Muscles of the Bowels, and make them stronger every time they force these Muscles to act naturally. The stronger these Muscles propel the food, the stronger does the friction of the food act on the flow of Digestive Juices. The more of these Juices that act on food, the more Nutrition does that food turn into, and the richer nourishment do the little Suction Pumps of the Intestines draw out of it.

**"It takes eight days to make Perfect Malt"—PABST.**

To brew the best beer the brewer must first have, make or buy perfect Malt, for the malt is the soul of the beer. Perfect malt is only made by the exclusive Pabst eight-day method. This process is double the expense of the usual four-day method of making malt. Four-day malt cannot make perfect beer such as

**Pabst Blue Ribbon Beer**

because four-day malt is a forced and unnatural process and beer made from four-day malt lacks the nutritious food elements which distinguish Pabst Beer. Pabst eight-day malt, the choicest hops, pure water and a process spotlessly clean are the secret of the superiority of Pabst Beer. The exclusive Pabst method of brewing with Pabst eight-day malt gives Pabst Blue Ribbon Beer its rich nutrition and the rich mellow flavor, found in no other, that marks it the perfect beer.

**CRUISE OF THE CHASE.**

**Itinerary of Trip of Revenue Cutter Cadets.**

The revenue cutter service practice bark Chase, having aboard twenty-four young men comprising the classes of revenue cadets, will leave for a cruise in the service, sailed from Baltimore a day or two ago and will spend the next three months on a cruise along the Atlantic coast receiving practical instruction in seamanship in all its branches and other knowledge that will be necessary before they can graduate and receive commissions as lieutenants in the revenue cutter service. The cruise is for work, but there will be considerable pleasure mixed in with the work, for stops will be made at a number of points along the coast where the young men will be given leave ashore, and an opportunity to enjoy themselves with social pleasures. The following is the itinerary of the cruise: Arrive at Hampton Roads, Va., June 2; sail for New London, Conn., June 4; arrive at New London, Conn., June 13; sail for Newport, R. I., June 16; arrive at Newport, R. **GENERAL AND PERSONAL**

**NEWS OF GEORGETOWN**

The condition of Reginald Hammel, the young man who was badly cut and stabbed on Decoration day in a Georgetown saloon, is much improved and it is stated at the hospital that if no complications set in he will be able to go to his home by the last of the week. His assailant, William Jackson, is still in jail, being unable to furnish bail for his release. Jackson will probably not be brought into the Police Court before the 11th instant for a preliminary hearing, at which time Hammel is expected to be able to appear against him.

Notice to vacate by the first day of July has been served upon the tenants of the old Taylor mansion, located at 3416 M street northwest, preparatory to its demolition to partly furnish the ground and building material for five stores and dwellings which are to be erected on the site. The construction of these new buildings will add much improvement to the looks of M street in the neighborhood.

Work on the last mile of the Great Falls and Old Dominion Railway is progressing favorably and Manager Butler expressed confidence that he will have cars running through to the falls by Independence day. The bulk of the grading has been completed. This part of the work is about the most difficult of any on the line, it is said, as it consists of a cut through a large hill of rock and the filling in of three large gulches. Some of the track has been laid and work has been commenced on several buildings with balconies, under which will
